DUSTIN PERRY

Indianapolis, IN | 463-302-8429 | dperry713@gmail.com | github.com/dperry713 | linkedin.com/in/dustin-perry

PROFESSIONAL SUMMARY

Cybersecurity and software engineering professional with project management experience and a technical foundation in full-stack development, application security, security controls, and incident response. Currently pursuing a Bachelor of Science in Cybersecurity at the University of Phoenix. Experienced in coordinating projects, managing resources and client relationships, and developing web applications using Python, JavaScript, React, and Node.js.

TECHNICAL & PROFESSIONAL SKILLS

Cybersecurity & Risk: Access Controls; Application Security; Assessment and Authorization; Cyber Threat Intelligence; Encryption; Governance; Incident Response; Intrusion Detection and Prevention; Mitigation; Network Security; Penetration Testing; Risk Analysis; Risk Management; Risk Management Framework; Security Controls; Security Policies; Threat Detection

Leadership & Delivery: Conflict Resolution; Decision Making; Planning; Project Management; Team Coordination; Resource Allocation; Client Relations

Development: Python; JavaScript; Node.js; React.js; Three.js; HTML5; CSS3; SQL; GraphQL; RESTful APIs; JSON; Full-Stack Development; Backend Systems; Web Applications; Responsive Web Design; Interactive 3D Web Experiences

Platforms & Tools: Git; GitHub; Docker; Linux; CI/CD; PostgreSQL; MySQL; MongoDB; SQLite; Figma; Bootstrap; AWS; Microsoft Azure; Google Cloud; Nessus; OpenVAS; Nmap; Burp Suite; Splunk

Security & Compliance: Identity and Access Management; IDS/IPS; Vulnerability Assessment; Security Monitoring; NIST Standards; ISO 27001; HIPAA; Business Continuity; Disaster Recovery

PROFESSIONAL EXPERIENCE

Project Manager | Keep It Wet | Indianapolis, IN | May 2020 – Present

- Oversee home renovation, property maintenance, and preservation projects from planning through completion.
- Coordinate teams and subcontractors to align schedules, work quality, and project requirements.
- Manage client communication, budgets, materials, and resource allocation to support customer satisfaction and repeat business.
- Resolve day-to-day issues, adjust plans as project conditions change, and balance competing priorities.

Machine Operator | Richardson Molding LLC | Columbus, IN | July 2019 – May 2020

- Operated manufacturing equipment while following production, quality, and workplace safety procedures.

Service Technician | E-Practical Solutions | Indianapolis, IN | February 2017 – April 2019

- Supported technical systems, troubleshooting, and service delivery for customers.
- Contributed to software deployment process improvements that reduced downtime by 20%, as recorded in the prior resume.
- Worked with encryption, authentication, and internal IT security requirements.

TECHNICAL PROJECTS

The Advent Piazza | Interactive 3D Web Experience | Portfolio Project

Live demo: dperry713.github.io/xmas/dist | Source: github.com/dperry713/xmas

- Built and deployed a themed interactive 3D web experience using a Three.js-based scene and user-facing controls.
- Demonstrates interactive presentation, state persistence, and a GitHub-based source and deployment workflow for a live portfolio project.

Full-Stack Web Development & Security Projects | GitHub: github.com/dperry713

- Developed web applications using React.js on the frontend and Python/Node.js for backend services; integrated RESTful APIs and GraphQL for application data exchange.
- Applied security practices and completed threat-detection and incident-response exercises through cybersecurity coursework; used Figma for UI/UX prototyping and user-centered interface planning.

EDUCATION, TRAINING & CREDENTIALS

- University of Phoenix — Bachelor of Science in Cybersecurity, current student; expected 2027
- University of Phoenix — Advanced Cybersecurity certificate/coursework
- Coding Temple — Software Engineering: Certificate of Completion, issued January 11, 2025
- Coding Temple — Backend Specialist, January 11, 2025; Backend Core, November 5, 2024; Frontend Core, November 5, 2024
